Contents

1

WHAT IS ECONOMETRICS? 1

1.1 What Is Econometrics?	1
1.2 Economic and Econometric Models	2
1.3 The Aims and Methodology of Econometrics	4
1.4 What Constitutes a Test of an Economic Theory?	7
Summary and an Outline of the Book	7

2

REVIEW OF SOME BASIC RESULTS IN STATISTICS 9

2.1 Introduction	9
2.2 Summation and Product Operations	10
2.3 Random Variables and Probability Distributions	11
2.4 The Normal Probability Distribution and Related Distributions	13
2.5 Classical Statistical Inference	15
2.6 Properties of Estimators	17
2.7 Sampling Distributions for Samples from a Normal Population	19
2.8 Interval Estimation	19
2.9 Testing of Hypotheses	21
2.10 Relationship Between Confidence Interval Procedures and Tests of Hypotheses	24
Summary	25

3

SIMPLE REGRESSION 27

3.1 Introduction	27
3.2 Specification of the Relationships	29
3.3 The Method of Moments	33
3.4 Method of Least Squares	36
3.5 Statistical Inference in the Linear Regression Model	43
3.6 Analysis of Variance for the Simple Regression Model	50
3.7 Prediction with the Simple Regression Model	51
3.8 Outliers	54
3.9 Alternative Functional Forms for Regression Equations	61
*3.10 Inverse Prediction in the Least Regression Model	66
*3.11 Stochastic Regressors	68
*3.12 The Regression Fallacy	69
Summary	72
Exercises	73
Appendix	79

4

MULTIPLE REGRESSION 89

4.1 Introduction	89
4.2 A Model with Two Explanatory Variables	91
4.3 Statistical Inference in the Multiple Regression Model	95
4.4 Interpretation of the Regression Coefficients	104
4.5 Partial Correlations and Multiple Correlation	107
4.6 Relationship Among Simple, Partial, and Multiple Correlation Coefficients	108
4.7 Prediction in the Multiple Regression Model	114
4.8 Analysis of Variance and Tests of Hypotheses	116
4.9 Omission of Relevant Variables and Inclusion of Irrelevant Variables	121
4.10 Degrees of Freedom and \bar{R}^2	125
4.11 Tests for Stability	130

*4.12 The <i>LR</i> , <i>W</i> , and <i>LM</i> Tests	137
Summary	139
Exercises	141
Some Data Sets	147

5

HETEROSKEDASTICITY 159

5.1 Introduction	159
5.2 Detection of Heteroskedasticity	162
5.3 Consequences of Heteroskedasticity	167
5.4 Solutions to the Heteroskedasticity Problem	169
5.5 Heteroskedasticity and the Use of Deflators	172
*5.6 Testing the Linear Versus Log-Linear Functional Form	177
Summary	180
Exercises	181

6

AUTOCORRELATION 185

6.1 Introduction	185
6.2 Durbin–Watson Test	186
6.3 Estimation in Levels Versus First Differences	188
6.4 Estimation Procedures with Autocorrelated Errors	192
6.5 Effect of AR(1) Errors on OLS Estimates	196
6.6 Some Further Comments on the DW Test	200
6.7 Tests for Serial Correlation in Models with Lagged Dependent Variables	203
6.8 A General Test for Higher-Order Serial Correlation: The LM Test	206
6.9 Strategies When The DW Test Statistic Is Significant	207
*6.10 Trends and Random Walks	212
*6.11 ARCH Models and Serial Correlation	218
Summary	219
Exercises	221

7

MULTICOLLINEARITY 223

7.1 Introduction	223
7.2 Some Illustrative Examples	224
7.3 Some Measures of Multicollinearity	227
7.4 Problems with Measuring Multicollinearity	230
7.5 Solutions to the Multicollinearity Problem: Ridge Regression	234
7.6 Principal Components Regression	237
7.7 Dropping Variables	243
7.8 Miscellaneous Other Solutions	245
Summary	247
Exercises	248

8

DUMMY VARIABLES AND TRUNCATED VARIABLES 251

8.1 Introduction	252
8.2 Dummy Variables for Changes in the Intercept Term	252
8.3 Dummy Variables for Changes in Slope Coefficients	258
8.4 Dummy Variables for Cross-Equation Constraints	260
8.5 Dummy Variables for Testing Stability of Regression Coefficients	263
8.6 Dummy Variables Under Heteroskedasticity and Autocorrelation	266
8.7 Dummy Dependent Variables	267
8.8 The Linear Probability Model and the Linear Discriminant Function	268
8.9 The Probit and Logit Models	272
8.10 An Illustrative Example	279
8.11 Truncated Variables: The Tobit Model	283
Summary	289
Exercises	290

9

SIMULTANEOUS EQUATIONS MODELS 293

9.1	Introduction	293
9.2	Endogenous and Exogenous Variables	295
9.3	The Identification Problem: Identification Through Reduced Form	296
9.4	Necessary and Sufficient Conditions for Identification	301
9.5	Methods of Estimation: The Instrumental Variable Method	304
9.6	Methods of Estimation: The Two-Stage Least Squares Method	310
9.7	The Question of Normalization	317
*9.8	The Limited-Information Maximum Likelihood Method	318
*9.9	On the Use of OLS in the Estimation of Simultaneous-Equations Models	319
*9.10	Exogeneity and Causality	325
	Summary	331
	Exercises	333

10

MODELS OF EXPECTATIONS 337

10.1	Introduction	337
10.2	Naive Models of Expectations	338
10.3	The Adaptive Expectations Model	340
10.4	Estimation with the Adaptive Expectations Model	342
10.5	Two Illustrative Examples	344
10.6	Expectational Variables and Adjustment Lags	347
10.7	Partial Adjustment with Adaptive Expectations	352
10.8	Alternative Distributed Lag Models: Polynomial Lags	354
10.9	Rational Lags	361
10.10	Rational Expectations	362

10.11 Tests for Rationality	364
10.12 Estimation of a Demand and Supply Model Under Rational Expectations	367
10.13 The Serial Correlation Problem in Rational Expectations Models	373
Summary	374
Exercises	376

11

ERRORS IN VARIABLES 379

11.1 Introduction	379
11.2 The Classical Solution for a Single-Equation Model with One Explanatory Variable	380
11.3 The Single-Equation Model with Two Explanatory Variables	382
11.4 Reverse Regression	391
11.5 Instrumental Variable Methods	392
11.6 Proxy Variables	395
11.7 Some Other Problems	399
Summary	401
Exercises	403

12

DIAGNOSTIC CHECKING, MODEL SELECTION, AND SPECIFICATION TESTING

12.1 Introduction	405
12.2 Diagnostic Tests Based on Least Squares Residuals	406
12.3 Problems with Least Squares Residuals	409
12.4 Some Other Types of Residuals	411
12.5 DFFITS and Bounded Influence Estimation	417
12.6 Model Selection	420
12.7 Selection of Regressors	425

12.8 Implied F -Ratios for the Various Criteria	429
12.9 Cross-Validation	434
12.10 Hausman's Specification Error Test	435
12.11 The Plosser-Schwert-White Differencing Test	441
12.12 Tests for Nonnested Hypotheses	443
Summary	447
Exercises	449
